

## Brothers

(Words and music by Joshua Starmer, copyright 2017)

### V1

It was long ago

**Bmin**

There used to be a place right here.

**Emin**

**Bmin**

Right where we stand

**A**

It was a place to go

**Bmin**

My brothers, we would stop and talk

**Emin**

**Bmin**

And watch the cars go by

**A**

### Chorus

A different place a different time

**G**

**D**

With a different state of mind

**Emin**

You wonder where it goes

**Bmin**

With the passing days

**A**

A different sun a different moon

**G**

**D**

A different cloudy afternoon

**Emin**

You can never know

**Bmin**

How your life will change

**A**

### V2

Do you remember when

We used to joke to pass the time

Right where we stand

On our way back home

We'd stop for just a little while

And watch the cars go by

## **Chorus**

## **Instrumental Verse and Chorus**

### **V3**

Now the grasses grow  
An empty lot is all that's here  
Right where we stand  
A time has come and gone  
Just like the creek that runs below  
While the cars pass by

## **Chorus**
